

BUILDING AGE: 36 YEARS

BUILDING FOOTPRINT: 360,000 FT²

BUILDING SIZE: 198,000 FT²

Here are some of the ways we are making a measurable difference:

63% of our ongoing consumables are green certified or environmentally preferred products.

60% of our food suppliers are local producers & growers, injecting more than \$550,000 back into the local economy.

Our rooftops gardens and permaculture help to absorb heat, offset the urban heat island effect and **reduce carbon emissions through cooling.**

Approximately

5,288 MEALS

donated to the Edmonton Food Bank's Second Helping program.

Food | Food donated: 2,874 kg

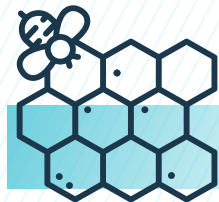

In 2018, we eliminated our use of plastic straws, diverting an estimated 253,00 straws from landfills.

We were the first conference venue in Canada to be **Green Key Level 5 certified.**

129 local artists are showcased through our community art initiatives every year.

45 pounds of honey was harvested from our rooftop apiary in 2018.

We are working to use less energy and water and emit less carbon and waste to reduce our building's footprint each year.

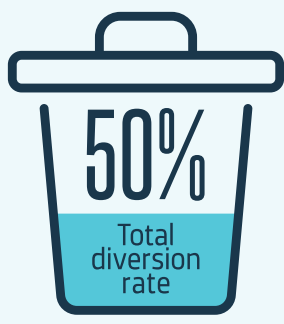

DID YOU KNOW?

The plants in our atrium offset more than 4,000 tonnes of CO₂ every year.

Carbon | ~7,400 cubic tonnes of Co₂e

In 2018, we participated the Climate Smart Carbon Accounting Inventory using the GHG Protocol for the first time—helping us reduce our carbon emissions in alignment with the City of Edmonton goals of reducing 35% by 2035.

Waste

Total waste generated: 252,567 kg
Total waste diverted: 126,777.8 kg

Waste generated per guest:

Energy

Energy usage: 7,070,451.56 kwh

A decrease of 8% over 2017. This is enough energy savings to power 78 houses for 1 year*

Water

Water usage: 29,949.40 m³ | Per meal served: 0.10 m³
